After a work retreat to Romania, your team finds yourselves trapped inside Dracula's castle, and to make matters worse, some of your team members have already been turned into vampires! Can you solve Count Dracula's puzzles, detect the vampires in your party, and escape before Dracula wakes up?

Learn about the real-life Dracula and his castle, brush up on vampire lore, solve puzzles, and try to catch your colleagues in the act of sabotage in this 90-minute virtual escape room and social deduction experience.
Our puzzles are expertly designed to play to the different strengths and weaknesses on your team, giving everyone a chance to shine, whether it's at a memory-based challenge, a riddle-solving conundrum, or bringing the group together to align.

Players will work out riddles to pick the right potion, move debris away from secret tunnels, consult crystal balls, grab tools to fight off vampires and test their memories by recalling Dracula's cryptic clues. Meanwhile, the group's vampires will subtly sabotage these efforts while evading detection.

Teammates only have one hour to complete the entire escape, and each puzzle and mini-game also has a time limit. This atmosphere creates a high-pressure yet low-stakes environment where coworkers must think quickly, engage their intellect, employ peak teamwork, and sharpen their people-reading skills.

This experience is ideal for teams who love a challenge. Also, since breakout rooms are randomized for each puzzle, the game is great for mingling.

Will your team outsmart Dracula? Can your crew find their way out of the creepy castle? Will your crew identify all the fanged traitors, or will the bloodsuckers prevail? Only time will tell, and the clock is ticking!
