Escape Everest is a thrilling virtual escape experience for teams.

Your team will trek through the Himalayas in search of the infamous Yeti!

With a mix of large and small group dynamics, your teams will solve puzzles and mini-challenges to find the Yeti's cave and earn medallions along the way. Those medallions will aid teams in the final escape. Through mini-games, the most smartypants players can earn extra clues for their teams, gaining an edge in solving the next puzzle. All while learning actual facts and folklore about the mystical Yeti and real places along the way.

A digital dossier stores your adventurer's research and clues, making it easy for teams to work together to crack codes, unscramble messages, plot courses, and trace the tracks of the mysterious missing abominable snowman.

Once teams find the Yeti's cave, it's time to attempt to rescue the Yeti from an avalanche. Your group will make their way through the cave by solving puzzles and competing in challenges and can use their medallions in unexpected ways. The first team out of the cave claims the glory of being the first to discover the Yeti!
